Office of Oral Health

FOREWORD

The Maryland Oral Health Resource Guide was developed by the Maryland Department of Health and Mental Hygiene, Office of Oral Health. The purpose of this guide is to inform and assist children, adults, patients with special health needs, caregivers, consumer groups, and government agencies to find affordable and appropriate dental care services in Maryland and the immediate surrounding regions. Only those programs, public facilities or private offices which provide discounted or special dental services (e.g., homebound/bedbound patients) are listed in this directory. There is no intent to advertise or promote any particular dental practitioner, program, or service.

Dental services are often beyond the reach of those lacking the financial means to afford such care because the purchase of these services often requires high out-of-pocket expenses. It is important to note that while Medicare does not cover routine dental care anywhere in the United States, Maryland's Medicaid managed care program, *HealthChoice*, provides comprehensive dental services for children and all *HealthChoice* managed care organizations also offer some basic dental services for adults. Please refer to the *HealthChoice* section in this resource guide if you have questions about eligibility, enrollment, or special services and/or if you are experiencing problems finding a *HealthChoice* network dental provider.

It is our intention to update this dental resource guide periodically since programs, services and eligibility criteria can change rapidly. While every attempt has been made to ensure the accuracy of this information, we cannot be responsible for all details contained in this manual.

We hope that the Maryland Oral Health Resource Guide is of assistance in finding the appropriate dental care that you, your client, or family member needs.

DEFINITIONS

Access Programs-services coordinated through county health departments provided by private dentists at pre-determined reduced fees.

Bedbound-those confined to or unable to get out of bed without assistance.

Comprehensive dental services - dental services including Preventive, Periodontal, Restorative, Endodontic and Oral Surgery; dentures are available at some locations, call for further information.

Cosmetic services - dental services provided for the purpose of appearance only.

Craniofacial anomalies- atypical conditions of the head and face, especially as a result of hereditary or congenital defects.

Dental hygiene- cleanings, xrays, fluoride treatments

Endodontics-root canal treatment

Extractions- pulling a tooth or teeth

Fee for service- payment for the service is expected when treatment is provided.

Federally Qualified Health Center (FQHC)- a comprehensive primary care provider that offers care to all persons regardless of their ability to pay and is governed by a consumer dominated board of directors.

General Dentistry- dental services including dental hygiene, preventive, restorative and simple oral surgery.

Grey area - those not eligible for Medicaid and without private insurance.

Head Start- provides children ages 0-5, 10% over poverty level, with educational and health care services.

HealthChoice- Maryland Medicaid managed care program.

Homebound-those confined to or unable to leave home without assistance.

HMO- Health care Management Organization

Maternity- pregnant

Medicare Part B Waiver- comprehensive dental services available at no fee in special programs to patients on Medicare and Medicaid.

Medicaid- government health insurance program for income eligible children and adults.

Medically compromised- health conditions that require special attention when receiving dental or surgical services.

MQHC- Maryland Qualified Health Center- non-profit health center that provides the same scope of services as a FQHC (Federally Qualified Health Center) and offers discounted fees to the low income insured.

Oral Surgery- surgical procedures in the mouth, such as pulling of teeth.

Oral and Maxillofacial Surgery- complex surgical procedures involving the mouth, head and neck regions.

Preventive services- x-rays, cleanings, fluoride treatments, sealants.

Restorative services - fillings and dentures

Sliding fee scale- treatment fees vary based on financial resources.

WIC- Women, Infants and Children services administered through county health departments.
